**INFORMATION DISCLOSURE STATEMENT**

Sir:

The Examiner is respectfully requested to consider the references, copies enclosed, which may qualify as prior art. For the Examiner's convenience, the references are listed on the attached form generated by the Applicant. Pursuant to 37 C.F.R. 1.98(a)(2)(ii), copies of cited U.S. patents and U.S. patent application publications are not included, but will be provided upon request.

This information is cited in a spirit of forthrightness and cooperation to enable the applicants to obtain that measure of protection for the invention to which there is entitlement. However, no representation is made that the listed art actually qualifies as prior art under the patent statute and the mere use of any form is not an admission that all listed references are prior art. No representation is made that applicants know of the best art.

The Specification of European Patent No. EP0695622B1 is provided in German. Applicants are not in possession of the English translation of the Specification of this reference. The relevance of this reference can be found in the English translation of the abstract, claims, and title of this reference, "Method and Apparatus for Plasma Modification of Flat Porous Articles."

It is believed that this submission requires a fee of \$180.00 under C.F.R. 1.97(c)(2), which is being paid electronically in conjunction with this EFS submission. If this is not correct, or if problems are encountered using the EFS system, please charge any deficiency or refund any difference to deposit account no. 07-1969.

Respectfully submitted,

/ellenwinner/
